

Velvet Grind Roastery

**Redefining the Daily
Ritual.**

Made with **GAMMA**

THE PROBLEM

The Status Quo: Stale, Generic, Inconvenient

Heat-Extraction Bitterness

Traditional brewing creates harsh, bitter profiles.

Highly Acidic Profile

Aggressive acidity that compromises flavor and comfort.

Boutique Cafes Lack Reach

Artisanal quality trapped behind the counter — no retail access.

OUR SOLUTION

The Velvet Grind Solution

Room-Temperature Steeped

No heat extraction — no bitterness.

Milder, Naturally Sweeter, Fruitier

Cold brew's signature smooth, complex flavor profile.

Zero-Compromise RTD Convenience

Artisanal quality, instantly accessible.

MARKET OPPORTUNITY

A \$14B Market in Motion

\$14B

Market Opportunity

Global cold brew and specialty RTD market.

22.72%

Global CAGR

Projected growth rate 2026–2034.

\$450K

Year 1 ARR

Baseline execution already achieved.

Traditional Coffee vs. Specialty RTD Nitro Cold Brew

Three powerful forces are converging to accelerate the shift from traditional coffee to specialty RTD nitro cold brew: evolving consumer preferences toward organic, minimally processed beverages, Millennial purchasing power driving specialty format adoption, and North America's 35.79% global market share priming the region for RTD expansion.

Our Vertical Product Ecosystem

Single-Origin Subscriptions

Velvet Grind Signature Roast — direct-to-consumer recurring revenue.

Foodservice Partners

Nitro Cold Brew Concentrate — B2B volume for cafes and offices.

Retail Grab-and-Go

RTD Nitro Cans in Espresso Cream, Dark Chocolate Mocha, and Vanilla Velvet. Cans projected to hold **50.70%** of total market share.

REVENUE MODEL

The Omni-Channel Revenue Engine
